

Catalogue Savings Report

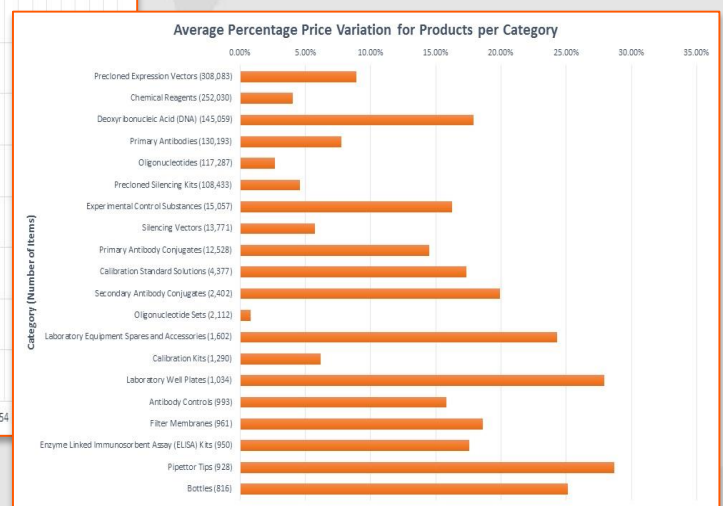

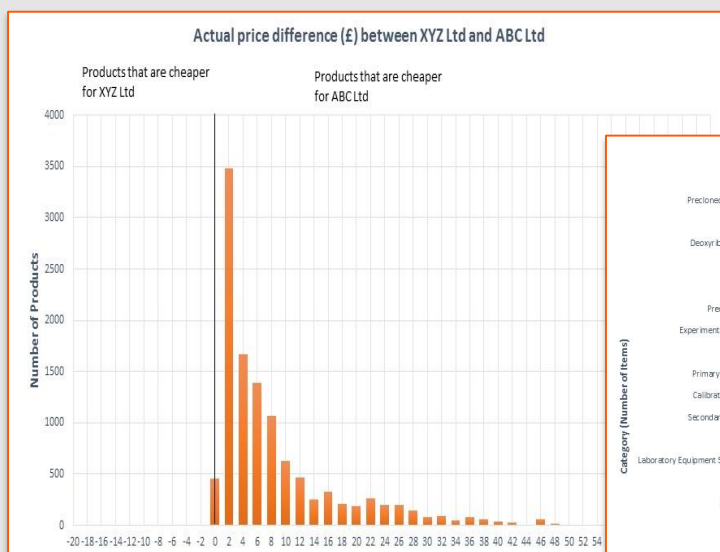

Identify and realise more savings from your eMarketplace

Having an eMarketplace for your organisation, can help you to deliver better cost management, but this needs to be constantly evaluated to ensure that you can identify where additional savings can be made.

At Science Warehouse, our Catalogue Savings Report can help you to identify where headline savings can be realised so you can make necessary changes to your eMarketplace. We can also provide ongoing support to manage this for you.

Adding Value

| Savings | Delivering a Better Quality Catalogue |
|--|---------------------------------------|
| Highlight Tangible Savings | Better Informed Purchasing Decisions |
| Meet Budget Challenges | Improves End-user Satisfaction |
| Science Warehouse can Support Changes | Delivers a Lighter Catalogue |
| Helps delivery further efficiencies in the tendering process | Reduce Tender/Contract Renewal Effort |

What is the Catalogue Savings Report?

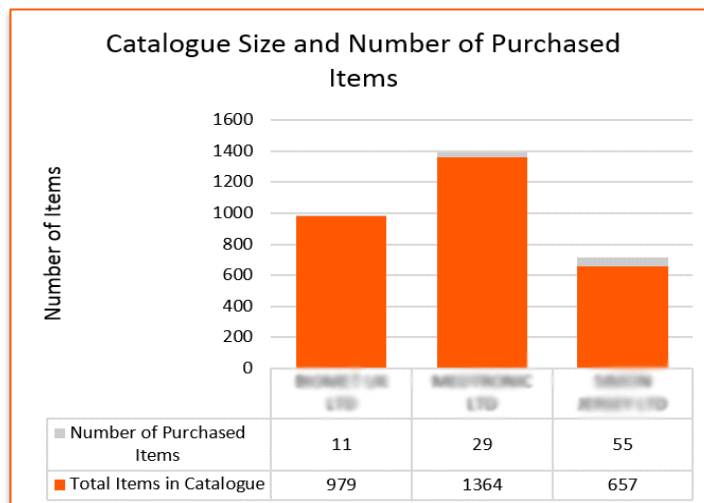

The Catalogue Savings Report will provide you with:

- Analysis of duplicate items within your eMarketplace, showing you potential savings that could be made from purchasing cheaper items
- Price variances of items, by category, allowing you to see the difference between the highest and lowest
- A benchmark of your Suppliers, on a like for like basis, so you can see where to drive more cost savings
- A price benchmark against your peers – taking into account similar size and same sector organisations
- A view of where Supplier’s data quality can be improved to provide end-users with more information on which to base purchase decisions
- A view on how much of the current catalogue is purchased, so you can manage which products need to be visible for end-users

When and how can I receive this report?

We are able to offer the Catalogue Savings Report either as a one-off report, or we can offer it on a subscription basis, with a report being produced every quarter.

We will send you the report as an Excel file so you can see a high-level overview of your results, as well as being able to dive deeper into these.
